

Aliens Project

Over the half term holiday we would like your child to create a project that they can share with the rest of the class. We would like children to explore the fictional idea of aliens.

Here are some ideas; however children are welcome to come up with their own:

- Draw an alien and label the parts
- Make a poster
- Make a book
- Make a collage of alien images
- Make an alien model using a variety of materials
- Make a PowerPoint presentation

This needs to be completed by: _____

Thank you for your ongoing support in making this project a success,
Year One teachers.
