Year 3 Bluebell- Maths Games Session

Year 3 Bluebell Class had a wonderful time welcoming parents into the classroom for our Maths Games Session! It was fantastic to see so many parents joining in with enthusiasm and working alongside their children to enjoy a variety of fun and engaging mathematical challenges.

The classroom was buzzing with excitement as families worked together to solve problems, test their mathematical knowledge and explore different strategies. There were lots of brilliant discussions, teamwork and problem-solving taking place, with children having the opportunity to show off their skills and explain their mathematical thinking.

The session was also a lovely opportunity for parents to experience some of the maths learning taking place in the classroom and see how we make learning enjoyable through games and practical activities. Most importantly, everyone had a great time learning together! A huge thank you to all the parents who took the time to join us and support the children. Your enthusiasm and involvement made the session a great success, and we really appreciate your continued support.
