Year 6 - Remembering with Respect

As part of our Remembrance Day learning, the children in year 6 Windflower have been busy creating a beautiful classroom display to honour and remember those who have served and sacrificed. They explored a range of creative techniques, making 3D poppies using different materials, creating a class battlefield scene decorated with their own sketches of poppies, and designing thoughtful wreaths and acrostic poems. Throughout our work, we linked our learning to our core value this half term: Respect, reflecting on the importance of remembering others, showing gratitude and honouring those who have given so much for our freedom.

Some of the children also had the opportunity to share their wonderful creations and talk about our learning during Monday's upper site assembly, helping others to reflect on the meaning and importance of Remembrance Day.
